Declaration of individual work

Student: **Haroun Mohammed Arbab Yousef** | Registration: **25/26972** | Username: ug2526972@ines.ac.rw | Verification code: **AI-A2-6972**

I declare that this assignment is my own individual work. I generated the dataset from my own registration digits using seed LLLL = 6972, wrote or directed the implementation of the pipeline, ran the experiments reported in the artifacts, and wrote the interpretations in the report. I have disclosed every use of external tools and AI assistants in `evidence/AI_USE.md` and I understand that I must be able to explain and modify every part of the submitted code.

The submission contains only my own synthetic dataset. No real farm records, personal data, passwords, tokens or private keys are included. The dataset is explicitly synthetic and the service is a classroom prototype that must not be used to decide access to finance, insurance or public services.
